Personal Statement

A hardworking and creative individual, excited to step into the creative industry and gain new experiences. As a college graduate, I'm eager to apply my skills in a real-world environment and continue learning along the way. As a creative and efficient team player, I thrive on collaboration and bringing ideas to life. I enjoy working with others, combining different perspectives, and supporting those around me.

Key Skills

Creative Thinking – I take on challenges with a positive attitude, always looking for creative solutions and thinking beyond the obvious to find what works best.

Technical Skills – I have experience with a range of creative software, including Adobe Photoshop, Blender, Unreal and Adobe Substance 3D Painter, as well as Microsoft Word and PowerPoint and other general Microsoft software's.

Time Management – I am a highly organized individual who excels at meeting deadlines and ensuring projects or tasks are completed on time and to a high standard.

Team Player – I work really well with others and love collaborating to get things done smoothly and effectively.

Adaptability – I'm always open to new experiences and challenges, keen to develop my skills and grow both personally and professionally.

Work Experience

Freelance Pixel Artist

I've gained valuable experience working with freelance pixel artist Jon Davies, where I was tasked with creating my own ideas based on a given theme. This led to the successful creation of an animated pixel art scene, which was a fantastic opportunity for me as an aspiring creative designer. This experience has strengthened my ability to accept creative constructive criticism and work efficiently within deadlines. While my professional experience is still growing, I am highly eager to immerse myself in new work environments to further develop my skills and knowledge, while also learning new techniques along the way.

- Distinction *

Hobbies and Interests

I've always been passionate about creativity. My biggest hobby is music—I love anything music-related and enjoy playing the guitar. I also have a strong interest in gaming, not just as a player but as a creator. In my spare time, I develop personal games and design 3D models, constantly exploring new ideas. Beyond that, I enjoy staying active and going on occasional walks.
